

# Resources

This is a compilation of books and websites which address diseases and insects of vegetables, field crops, and woody landscape plants which we have found useful. This is a partial list which will expand over time to become more comprehensive. If you have a favorite reference, please let me know and we can see about adding it.  
– Melodie Putnam, Oregon State University Plant Clinic.

## Regional - general

OSU handbooks: <http://pnwhandbooks.org/plantdisease/>, <http://pnwhandbooks.org/weed/>,  
<http://insect.pnwhandbooks.org/>

A crop by crop list of insects, weeds, and diseases and their management in California:  
<http://www.ipm.ucdavis.edu/PMG/crops-agriculture.html>
